

Forecast For Tayside, Central & Fife
Issued by Met Office Aberdeen
at 0400 on Tuesday 23 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Mostly dry, but chance isolated showers in west. Occasional brightness.

Today:

Mostly dry with only a few light showers cropping up, mainly confined to western parts of Tayside and Central. Some limited brighter spells appearing, most readily in Angus, Dundee and Fife. Westerly winds. Maximum temperature 10 deg C (50 deg F).

Tonight:

Majority staying dry and clear for the evening. Southwest winds strengthening overnight as band of showery rain spreads from the west, which clears to scattered showers in west come dawn. Minimum temperature 4 deg C (39 deg F).

Wednesday:

Showery rain initially in east. Otherwise brighter spells and scattered showers. Outbreaks focused in west by day then north from early evening as winds veer more northerly and strengthen. Maximum temperature 8 deg C (46 deg F).

Outlook for Thursday to Saturday:

Wintry showers Thursday, mainly confined to north. Friday and Saturday turning unsettled with gale, perhaps severe gale winds, and periods of rain, which turn wintry to quite low levels.
